KREMER TROPHY AGAIN LOCAL WIN

Didsbury curlers journeyed to Grossfield in quest of the Kremer challenge trophy Friday last and returned home with the prize, winning by a 13 point margin.

Neither of the games were very close, the local rinks having the edge all the way through. McCloy won his game from Pogue 16-9 and Julien his from Williams 20-14.

Personnel of Rinks:

Crossfield: Millar, McRoy, Whitfield, Williams (skip)—14.

Didsbury: Berscht, Fisher, Johnson, Julien (skip)—20.

Crossfield: Thomas, Purvis, Meyers, Pogue (skip)—9.

Didsbury: Studer, McNaughton, McGhee, McCloy (skip)—16.

Chevrolet Demonstration In a Packed House

From the famous "Bluenose" fishing fleets of Lunenburg and the iron mines of Sydney to the logging camps of British Columbia is a far cry. Yet some hundred people who were fortunate enough to gain admittance to the special Chevrolet Chassis Lecture and Demonstration held in the Opera House, Didsbury, the afternoon of March 7th, viewed these scenes and many more from the length and breadth of the Dominion, illustrative of the nation's vast natural resources and scenic wonders.

"Chevrolet Across Canada" is the title of the highly educational moving picture which was especially taken for the Chevrolet Motor Company of Canada and was shown here under the auspices of Adshead's Garage, local dealer. Chevrolet cars and trucks were seen playing their part in the Nova Scotia fishing and mining industries, or doing their bit in the building of good roads in the Prairie Provinces. Gathering the nation's wheat in the Canadian West, the same sturdy vehicles were shown beside the combines loading grain for speedy transportation to the elevators.

Thrills of another kind were seen in Ontario, where numbers of Chevrolet trucks do service as fire engines. A fire truck was pictured making a record run and fighting and putting out a real live fire. A horrible railway accident was narrowly averted

DIED

Alexander George, beloved son of Mr. and Mrs. W. Bruce, Didsbury, age 17, at the Holy Cross Hospital, Calgary, Friday, March 8th, 1929. Interment took place from Knox United Church, Didsbury, Sunday, March 10th.

Mrs. J. Ruby, at Portland, Ore., (formerly of Didsbury) on Sunday, March 10. The funeral was held on Wednesday at Portland.

TRACKWAYS BILL AGAIN FAILS TO GAIN APPROVAL

EDMONTON, Mar. 13.—The Alberta Trackways Bill sponsored by A. B. Claypool, U.F.A., Didsbury, went down in defeat in the Legislature on Tuesday night by a vote of 18 for and 35 against and thus passes out of the legislative picture for this year.

The Bill was originally introduced last session by Mr. Claypool, but was defeated on a vote taken after a discussion in committee of the whole assembly.

The principle of the bill was to authorize an organization known as the Alberta Trackways to construct a concrete highway from Calgary to Banff.

MY ANGELINE

Mable Wayne

It is not often that Canada has been the inspiration for popular songs. We sing about "Michigan," "My Ohio Home," "The Swance River," but at last the most romantic portion of Canadian territory has served to inspire

Evangeline Well. Grand Pre popular song writers just as it did the great Longfellow in other days. Wolfe Gilbert and Mable Wayne have given us "My Angeline," based on the "Evangeline" story and, no doubt, many other Evangeline songs will make their appearance and add to the fame of this quaint Nova Scotia valley of apple blossoms. The authors of "My Angeline" were also co-authors of "Ramona," "Chiquitta" and many other popular numbers.

The winners of the contest were Mrs. Fletcher and John Topley.

HARMATTAN

The big dance function of the season will be held in Harmattan hall on Thursday, March 28th. This will be the annual Easter dance and a record crowd is anticipated. Patronage is expected from Didsbury and Olds, in fact, Harmattan will be the rendezvous for all the merrie dancers on the above night.

CARD OF THANKS

We wish to take this opportunity of expressing our thanks to those who extended their kindness and sympathy during the illness and bereavement of Mrs. W. M. Wilson.

Husband and relatives.

Mr. and Mrs. W. Bruce and family wish to express their thanks to their many friends who extended their kindness and sympathy during the bereavement of their son and brother.

Farms for Sale

The Soldier Settlement Board of Canada offers for sale by Public Tender:

The South West Quarter and the West Half of the North West Quarter of Section Seven (7), also the South East Quarter and East Half of the North West Quarter of Section Seven (7), all in Township Thirty-one (31), Range Twenty-six (26), West of the Fourth Meridian, containing in all 480 acres, more or less, reserving all mines and minerals.

TERMS OF SALE are not less than 20 per cent of the purchase price in cash on acceptance of the tender, and the balance in 10 equal annual instalments, with interest at 6 per cent per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100. If tender is accepted, this sum will be credited to the purchase price of the land. If tender is not accepted the money will be returned to the tenderer.

Tenders will be opened at CALGARY, Alberta, on TUESDAY, March 26th, 1929.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned, the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes marked "Tender for the purchase of the SW 1-4 & W 1-2 of NW 1-4 7 and SE 1-4 and E 1-2 of NW 1-4 7-31-26 W 4th Meridian."

Address tenders and enquiries to:

Canada's Financial Position

The financial position of the Dominion of Canada, as revealed by Hon. J. A. Robb, in the budget presented by him to the House of Commons on March 1, is such as to be the source of great satisfaction to all citizens, because, irrespective of party affiliations, every Canadian is intensely interested in the allied subjects of Dominion finances and taxation.

During the war Canada piled up a huge debt for a nation of less than ten million people. The people assumed the heavy burden without grumbling, knowing it to be absolutely necessary, and a price that must be paid to safeguard the liberties of the world, including their own. As war expenditures enormously increased and the debt piled up, it, of course, became necessary to impose much new and heavier taxation, not only to keep the debt as low as possible, but in order to meet heavy annual interest payments upon that debt.

Even after victory was won it was necessary to still further increase the debt in order to bring our armies home from Europe, re-establish the men in civilian life, and make provision for huge sums to be paid annually in pensions. Therefore, for some years the debt continued to increase and heavy taxation to be imposed. At one time it almost seemed that, instead of the debt being decreased, it would go on increasing from year to year.

Recent budgets have, however, been most encouraging, and none more so than that of March 1, last. After meeting all expenditures on both current and capital account, Canada rejoices in a surplus of \$70,000,000, the largest ever recorded since Confederation. And this surplus for 1928-29 follows on the heels of a surplus of \$67,000,000 in the preceding year. The net result is that as loans mature the Finance Minister is in the happy position of being able to pay them off in cash and not forced to borrow by refunding loans. In other words, the debt is being steadily, even rapidly, reduced. In the fiscal year now closing, Mr. Robb paid off \$53,000,000, and he has cash in hand to pay off another \$60,000,000 which falls due next August. Thus in two years \$113,000,000 is paid off the national debt, and about \$6,000,000 a year saved in interest.

Mr. Robb pointed out that seven years ago, on April 1, 1922, the annual interest charge on the public debt amounted to \$133,482,113, whereas on April 1, 1929, the annual charge would be \$117,142,100, a decrease of \$16,340,012.

This very gratifying reduction has been brought about, not by increasing taxation, but, on the contrary, in the face of a steady lessening of that burden. For example, the sales tax, which a few years ago was six per cent., is now only two per cent.; the rate of postage has been reduced from three to two cents; the size of incomes exempt from taxation has been increased, and the rates payable on others reduced; the stamp taxes on receipts abolished and on cheques largely reduced; numerous reductions in customs tariff schedules have been made, and now taxes on telegrams, cables, insurance policies, railway and steamship tickets are to go.

It is not possible, of course, to remove taxation as rapidly as it was imposed during the war years, but every year sees some advance in the right direction made. And every such reduction has had a beneficial effect on the business of the country with the result that the lower rates have brought in revenues only slightly smaller.

Reduction in taxation has been made possible through three main causes. First, the care exercised by Mr. Robb over all expenditures which he has insisted be kept down to the lowest possible point consistent with efficiency and the expanding needs of the country. Economy has not been enforced to the point where development of the country was checked, but expenditures on non-productive services have been kept to a minimum. Second, whereas in 1920, 1921 and 1922, the Canadian National Railways were operated at a deficit amounting in these three years to no less a sum than \$148,000,000, in the year just closed, the C.N.R. not only paid all operating expenses, all interest on bonds and debentures held by the public, but accumulated a cash surplus of \$6,000,000. Third, the substantial increase in the trade and commerce of Canada, assisted by reductions in taxation, and the marked development in all branches of industry, has brought larger revenues to the Government.

And the bright, the promising feature of the situation is that all indications point to a continuance of these same favorable conditions throughout the next fiscal year so that the people of Canada can look forward with a large degree of confidence to next year's Budget disclosing another large reduction in the national debt and still further decreases in taxation.

New Land Under Cultivation

Extensive Areas in Western Canada Are Annually Taken Up

Additional extensive areas are annually brought under farm cultivation in Western Canada. Last year it was estimated a total close to 2,500,000 acres of Canadian Government free homestead lands were taken up by settlers in the four Western Provinces; a total of 15,566

homesteads being filed upon, each of 160 acres, compared with 6,357 in 1927.

There is now one motor vehicle for every 21 of the population of Great Britain.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Without Comment

A California authoress sent a manuscript to Ambrose Bierce, with the request that he give her "a criticism in one sentence, and drop further comment." Something was heard to drop all up and down the Pacific coast when he replied: "The covers of your book are too far apart."

Not only does the girl in some districts of Indo-China make the proposal, but with her also lies the initiative for divorce.

To Boost Edmonton

New Industrial Association Has Been Organized To Encourage Industries

A new association has been formed in Edmonton under the name of the Edmonton Industrial Association, of which J. B. Starky, of the Penn Mine, is president, and W. R. Howson, local barrister, vice-president. The association gave a get-together dinner recently, which was attended by 150 business men. The object of the organization is to patronize Edmonton-made goods and to encourage industries in this city.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callosities on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

Predicts Library Of Aerial Photographs

May Be Created Within Ten Years Says J. W. Pierce

The creation of a library of one million aerial photographs within the next 10 years to constitute a reference inventory of Canada's natural resources was predicted by President J. W. Pierce, D.L.S., at the annual convention of Dominion Land Surveyors at Ottawa when he said that already 250,000 aerial photographs covering areas from coast to coast had been assembled and placed in use for this purpose under the Topographical Survey of Canada, Department of the Interior.

ABOUT YOUR NERVES

Headaches and Other Troubles Follow When the Nerves Give Way

Nerves are delicate fibres running from the brain to all parts of the body. Some of them give us the sense of touch and feeling; others convey the will to our muscles and enable us to move. When we have an "attack of nerves" it means that the body is in some way out of order and the nerves have become over-sensitive so that we get neuralgia, nervous headache, sciatica, or some other nerve trouble. Sometimes the nerves get too weak to do the will of the brain, and we get trembling hands or limbs, or perhaps St. Vitus dance. The whole nervous system is fed and kept healthy by your blood. If that is thin and poor nervous weakness follows. In that case a tonic is needed to build up the blood, so that it may in turn feed the nerves, spine and brain. The very best medicine for enriching the blood is Dr. Williams' Pink Pills. You cannot take them without feeling the uplift they give. Your appetite improves, your brain is clearer, you feel full of new life. One sufferer, Miss Margaret R. MacDonald, Catalone Road, N.S., tells what this medicine did for her. She says: "I suffered for a long time from severe headache and nervous exhaustion. I tried several kinds of medicine but got no relief until I used Dr. Williams' Pink Pills, and these, before long, gave me complete relief. From my own experience I feel that I cannot praise Dr. Williams' Pink Pills too highly, and would advise anyone who is suffering from headaches or nervous exhaustion, to give them a fair trial, as I feel sure the results cannot be anything but satisfactory."

Take these pills as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

George Washington's second inaugural address contained 134 words, and is regarded as the shortest in the history of such occasions in the United States.

COUGHS

are Nature's signals warning that resistance is broken and the body undernourished.

is a blessing to all who need strength. It helps keep the body vigorous and healthful. Try it!

Scott & Bowne, Toronto, Ont. 25-59

Has Met With Success

Marshall Stillman Movement In States Helps Discharged Convicts To Reform

Possibly few persons could say off-hand what the Marshall Stillman Movement is, and yet it is grappling with, and greatly aiding in the solution of, one of the most pressing social problems in the United States, that of taking care of the convict on his discharge. It strives to catch the former convict just as he leaves prison in a mood of uprightness and to give that mood an opportunity to express itself. Its "clubs" have figured as perhaps the most important feature of its work until recently, but during the last year the question of jobs for its wards has been answered more successfully than ever before by the establishment of enterprises where former convicts alone are employed. The plan has succeeded beyond expectation, and to date, has to its credit a 100 per cent. record of achievement; that is, there have been no backsliders.

Society has in the past been responsible for many first-time offenders becoming habitual criminals. This movement is an effort to enable men who earnestly desire to do so, really to straighten out. — Chicago Science Monitor.

Minard's Liniment for the Grippe and Flu.

A combined saxophone and bagpipe has been invented. Scientists also discovered a new lethal gas recently.

YOU CAN'T DYE with Good Intentions

You can get results—after a fashion—with any old dye; but to do work you are proud of takes real anilines. That's why we put them in Diamond Dyes. They contain from three to five times more than other dyes on the market! Cost more to make? Surely. But you get them for the same price as other dyes.

Next time you want to dye, try them. See how easy it is to use them. Then compare the results. Note the absence of that re-dyed look; of streaking or spotting. See that they take none of the life out of the cloth. Observe how the colors keep their brilliance through wear and washing. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

10,000 Bottles a Day

Every day 10,000 women buy a bottle of Lydia E. Pinkham's Vegetable Compound. They know that there is no better remedy for their troublesome ailments with their accompanying nervousness, backache, headache, "blue" spells, and rundown condition.

Lydia E. Pinkham's Vegetable Compound

RESOLUTION ON RESOURCES IS FINALLY ADOPTED

Ottawa.—After a stormy career, the Woodsworth resolution on natural resources, in amended form, finally passed the House of Commons. Debate on the resolution and on the numerous amendments which followed its introduction, has held up consideration of the budget for several days.

The resolution finally emerged, after the buffeting which it has received, in a very different form from that which its mover intended. As originally drafted and presented to the House by J. S. Woodsworth, Labor member for Winnipeg North Centre, it set forth "that in the opinion of this House, no disposition of the natural resources, under the control of the federal government, shall be effective until ratified by Parliament."

The resolution as approved by Parliament, reads as follows:

"That, in the opinion of this House, no further disposition of water powers under the control of the federal government in the provinces of Manitoba, Saskatchewan and Alberta, shall be made under the Dominion Water Powers Act, but the said water powers shall be administered by the respective provinces under powers to be granted by this Parliament similar to the powers granted to the province of British Columbia to administer the water powers in the railway belt, as set forth in the railway belt water act of 1912."

Master Mariner Dies

Captain William Sanderson Came To Vancouver In The Eighties

Vancouver.—Death of Captain William Sanderson, pioneer Canadian Pacific Railway Company master mariner, has broken a link between the present and an earlier shipping era on the Pacific Coast. Captain Sanderson, for whom funeral services were held in Vancouver, was a native of Liverpool, and came to Vancouver in the 80's, a boatswain of the old "Empress of India" on the liner's maiden voyage. He remained in the employ of the Canadian Pacific here until his retirement some years ago.

A Record Production

Ottawa, Ont.—Mineral production in Canada reached a net record in 1928 with a total of \$273,446,864. This surpasses the 1927 figures by \$26,090,169 or 10.5 per cent. Advances were general in all fields; metals, non-metals, fuels and structural materials. Figures were made available at the Dominion bureau of statistics.

Did Not Finish Sentence

Belfast.—Eamon de Valera, Irish Republican chieftain, was released from jail four days before finishing a 30-day sentence he had been serving for illegally entering Ulster territory.

"Marlatt's Treatment"

INTESTINAL flu, high blood pressure, nervous disorders—how careful one must be to avoid these dangerous ailments at this time of the year.

Keep the system clear of poisons and impurities. Tone up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you as it helps thousands every year to ward off illness and disease.

Hoover Is Starting Prohibition Drive

New President Plans To Clean Up National Capital

Toronto.—A special despatch to the Mail and Empire, from Washington, says:

"President Hoover will begin his prohibition enforcement drive in Washington. He will confer at an early date with the commissioners of the district of Columbia and urge them to clean up the national capital. Another step will be to appeal to all public officials to refrain from patronizing boot leggers and drinking. His drive here may result in stopping many hosts and hostesses from serving drinks at dinners attended by public men and women.

"During the Coolidge regime Washington entertainers gradually curtailed use of strong drink at parties, but Mr. Hoover will further discourage the custom."

Opposes Intervention

Premier Baldwin Against Direct Governmental Intervention In Mining Industry

London, England.—Direct governmental intervention in the mining industry would not be advantageous, Premier Baldwin told a deputation from the Miners' Federation, according to the joint report of the proceedings at the meeting recently issued. Mr. Baldwin expressed the opinion that amalgamations and other forms of re-organization in the industry were progressing satisfactorily.

The most urgent matter requiring attention, he said, was the transference of the surplus miners to other industries. He appealed for the co-operation of the Miners' Federation with the government schemes in this matter.

Wins Dog Derby

St. Goddard First To Cross Line In Northern Manitoba Classic

The Pas, Man.—In the most sensational finish ever witnessed in any dog derby, Emile St. Goddard, youthful "musher" of international fame, finished in the renewal of The Pas dog derby association 200-mile non-stop derby.

St. Goddard reached the finishing line on the Saskatchewan river at 11.09 p.m. His time for the 200-mile course to Flin Flon and return was 26 hours 59 minutes.

Earl Brydges, another local entrant, finished second, only three minutes behind the famous St. Goddard, after fighting an uphill battle during the early hours of the night.

Attempt To Salvage Plane

Copenhagen.—Four members of the Hobbs' expedition in Greenland have left Mount Evans, Greenland, on an attempt to salvage the aeroplane of Bert Hassel and Parker Cramer. The plane came down last summer 12 days' walking distance from Mount Evans, where the Hobbs' expedition is wintering. Word of the salvage attempt was radioed to the newspaper Ekstrabladet.

Accepts Radio Agreement

Ottawa.—Word has been received by Alex Johnston, deputy minister of marine, that Newfoundland has accepted the radio agreement concluded by Canada, the United States, Newfoundland and Cuba, covering the short waves, Cuba and Mexico have yet to be heard from.

Ex-President Will Write

New York.—Curiosity as to what Calvin Coolidge would do on returning to private life was at least partially satisfied by announcements that contributions from his pen would appear in two magazines.

Celebrates Birthday

Toronto.—Toronto celebrated its 95th birthday March 6, having been incorporated as a city by act of the legislature, which received royal assent March 6, 1834. In 1834, Toronto had a population of 9,251.

Appeal Is Dismissed

Toronto.—The appeal of Arvo Vaaro, editor of Vapaus, Finnish newspaper published at Sudbury, Ont., from a conviction in that city on a charge of publishing seditious libel, was dismissed in second divisional court.

RECEIVES CONGRATULATIONS

Dr. Donald MacGillivray, pioneer missionary in China, who is receiving congratulations on the fortieth anniversary of his entrance into the Chinese mission fields.

To Ban Poison Gas

Germany Prepared To Sign Agreement Prohibiting Use Of Gas In Warfare

Geneva.—Germany, which introduced the horrors of poison gas on a large scale during the world war, has announced to the world that she is prepared to sign a protocol prohibiting the use of asphyxiating gas in warfare.

The announcement by Dr. Gustav Stresemann, German foreign minister, sent the regular March session of the League of Nations council off to an auspicious start in its efforts for world peace.

Stresemann said Germany would ratify the protocol shortly. August Zaleski, Polish foreign minister, announced that Poland also would ratify the protocol.

New Scholarships Offered

Acceptance To Be Considered By University Of B.C.

Vancouver.—A \$1,000 scholarship in economics, effective for three years, with a free study trip to the Orient, will be possible for students at the University of British Columbia, through an offer by H. R. MacMillan, Vancouver exporter. The offer will be considered by the board of governors of the University shortly. By means of the scholarship Mr. MacMillan hopes to promote the study of Oriental trade and business conditions on the Pacific.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes: "For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Ice-Bound In Baltic Sea

Copenhagen.—Christian X., King of Denmark, Queen Alexandrine and Prince Knud, arrived here after spending the night aboard a ferry ice-bound in the Baltic Sea. The ship took twelve hours to make what ordinarily is a two-hour voyage from Warnemünde to Gjedser.

For Influenza

The Liniment That Relieves All Ailments

Compulsory Voting Law Is Considered

Workings Of Australian Law Being Studied By Committee

Ottawa.—Compulsory voting has been under consideration by the special committee of the House of Commons which is dealing with amendments to the Dominion Elections Act and the Corrupt Practices Act. No decision as to the principle involved will be made until sections are drafted suitable to Canadian conditions.

Dr. T. E. Kaiser, Conservative, Ontario, read to the committee the sections of the Australian act which he said was working satisfactorily. In the last election in that country 91 per cent. of voters on the lists had attended the polls as compared with 78 per cent. in the previous election. With the assistance of W. A. Boys, Conservative, Simcoe, North, Dr. Kaiser is to draft sections suitable for inclusion in the Dominion Elections Act.

The Australian Act provides a penalty of £2 for failure to vote, if no reasonable excuse can be given for such failure.

Question Validity Of Pension Law

Quebec Opinion Considers Federal Pensions Act Ultra Vires

Quebec.—Legal opinions furnished to the premier of Quebec as to the federal old age pension law raised the constitutional question as to whether or not the Dominion government has power to use its monies to pay to the provinces a part of the cost of such a scheme as the old age pension law.

This is the information which Premier Taschereau gave to the Quebec legislative assembly when debate was resumed on a motion for production of documents relating to the pension scheme.

Mr. Taschereau has consulted three constitutional authorities in the matter, Eugene Lafleur, K.C., Aimee Geoffrion, K.C., and Louis St. Laurent, K.C. Mr. St. Laurent gave it as a definite opinion that the federal law is ultra vires, the premier said.

Farm Loans For B.C.

Loans May Be Made Available For Agriculture By First Of May

Victoria.—Farmer loans should be available to British Columbia agriculturists by May 1, according to an announcement given out here by Dr. J. D. MacLean, chairman of the Canadian Farm Loan Board.

The chairman of the board stated that nominations for places on the provincial loan board had been made by the provincial government and will be considered by him and his colleagues immediately. The names of the provincial nominees were not revealed.

Would Retain Dole

London, England.—First reading has been given in the House of Commons to a bill which makes migrants from Britain still entitled to unemployment insurance benefits. The bill provides that a migrant who goes overseas but remains within the Empire, should receive unemployment pay for a period up to two years.

Wants Churchill Site

Winnipeg, Man.—The Manitoba government has opened negotiations with Ottawa for taking over the Churchill townsite. Hon. D. G. McKenzie has left for the capital to talk over the question with officials there. He will also visit Toronto to discuss rural hydro electric rates with officers of the Ontario hydro system.

Killed By Avalanche

Erivan, Russia.—Thirteen persons were killed and many injured in an avalanche in the Armenian village of Zanghur, advices received here recently stated. Several houses were destroyed by the avalanche, which was reported due to heavy snowstorms in the region.

Cement Prices Reduced

Winnipeg.—A reduction in the price of cement of ten to fifteen cents throughout the prairie provinces, is announced by the Canada Cement Company.

EARLY END OF MEXICAN REVOLT IS PREDICTED

Mexico City.—A speedy end of the rebellion against the administration of Provisional President Portes Gil was predicted in an official government bulletin recently.

The bulletin said that General Jesus M. Aguirre, leader of the revolt at Vera Cruz, had been deserted by most of his soldiers, who had returned to the support of the government and were fighting their former leader.

Announcement also was made that the federals had re-captured Monterrey, the strategic centre in Nuevo Leon, had taken Cordova, in the State of Vera Cruz, and would in a few days be in full possession of the gulf port of that name.

Washington.—The Mexican government situation is causing more anxiety in Washington than anything else since the Nicaraguan revolt. Men in high government and senate circles state frankly that the revolt has a very good chance of overthrowing the Mexican government.

This might result in the United States having to undertake another expedition with marines into a Latin country. The Nicaraguan experiment proved so unpopular with the average American that the government is not anxious to repeat it. But the protection of American nationals and their property in Mexico will be the first consideration.

Seek Potash Deposits In British Columbia

Prospectors Being Encouraged By Smelter Company At Trail

Victoria.—The Consolidated Mining and Smelting Company which wants potash for its new fertilizer industry on which it is entering on a large scale at Trail, B.C., announced measures here for the encouragement of prospectors in the unearthing of potash deposits believed to exist in British Columbia.

The Consolidated will make a free analysis of samples for prospects and to aid in the identification of samples, deposits are being placed on display here and in Vancouver. A booklet on potash and its occurrence will also be sent from Trail to anyone desiring it.

Radio Helped Unemployed

Berlin.—The first German attempt to get employers and unemployed together by radio succeeded beyond hopes of those fostering it. The municipal employment offices had more jobs than men. In answer to appeal over government radio station for workers, several thousand jobs were filled.

Huge Seizure Of Narcotics

New York.—Narcotics worth \$1,000,000 at the price addicts pay, were seized as they were being shipped by express to distributors of the underground drug trade in the south and west. Four men, one of them said to be a professional bodyguard to gangsters, were arrested and held in high bail.

Mrs. Sam Speers Tells How Cuticura Healed Her Baby

"When baby was three days old he started to break out with eczema. It began with very small pimples which later festered and broke and then scaled over. When he was twelve days old he was almost entirely covered with eruptions. The affected parts seemed to itch and burn so that I had to keep mittens on his hands to prevent him scratching his face.

"My mother advised me to try Cuticura Soap and Ointment. He seemed to get relief after the first treatment, and in two months he was completely healed." (Signed) Mrs. Sam Speers, Innisfree, Alberta.

Cuticura Soap, a world-famous aid to beauty, cleanses and purifies the skin and hair, restoring them to their natural, fresh and wholesome beauty. Its daily use maintains them in a delightfully healthy condition.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: Canadian Distributor, J. E. Wall Company Limited, Montreal.

Cuticura Shaving Stick 25c.

BUSINESS COURTESY

Business methods have undergone a tremendous change in recent years. It was the custom at one time for one business concern to knock another for all it was worth. Unfortunately, in some of the smaller towns this still exists, but on the whole competition between business firms is conducted in a very friendly manner.

When a well-known departmental store opened recently in Calgary, its outstanding competitor carried a message of welcome to the store invading its territory, in a section of its large advertisement. Many other business houses did likewise.

This is the spirit that creates a better feeling all around. It could be practiced to advantage in all walks of life. Nothing is ever lost by showing courtesy to an opponent.

WHAT ADVERTISING HAS DONE FOR US

In this modern age, replete with conveniences, and new inventions, one is apt to pass over the part played by advertising.

Our great-grandmother knew too well the everyday requirements to keep her house going. Hot and cold running water were unknown. Clothes were washed with elbow grease. An endless list would be needless recapitulation. Suffice it to say none of the old back-breaking labors are today necessary.

You may ask what have these facts here to do with our subject "advertising." Something brought about the "change," and such a change! Advertising! Advertising has been the method of telling the housewife of these necessities, as the demands for conveniences grew, new and quicker methods of production had to be solved, more inventions. Then again the possibility of selling this and that other commodity whetted the imaginations of other inventors. More conveniences. Advertising has been the driving force. It in turn has told you about them and your merchant had to fill up his shelves to fill yours and your neighbor's wants. Result—bigger sales—lower-priced merchandise.

To state that advertising has "built" the American Republic and the Dominion in which we live is no mean boast. Big business houses which set aside millions of dollars a year in their yearly estimates for advertising, ought to know their business. Advertising has been a service to them, and a service to the consumer.

PROVINCIAL HORTICULTURAL ASSOCIATION FORMED

Those interested in the beautification of the province will be interested in the announcement of the recent formation of the Alberta Horticultural Association. The new organization is the outgrowth of a concerted movement on the part of the Alberta Fairs Association and of twelve horticultural societies in various parts of the province. Its main purpose is to encourage urban and rural citizens to make the homes and home surroundings in Alberta more attractive by the growing of trees, shrubs and flowers. The Association is interested in assisting in the formation of additional horticultural societies in the province and will furnish information at any time to societies or to individuals on

An Englishman, visiting in Canada, heard the song hit, "Yes, sir, That's My Baby." He returned to England and he told them that he had heard the most ripping song while he was in Canada. The title of the ditty was "Decidedly, the Child is Mine."

GLIMPSES FROM THE PAST

20 YEARS AGO

The new chemical engines for the fire department were tested on Monday last. Chief Smart of the Calgary fire dept. and Mr. Bickle, the Winnipeg agent for the engines, were present and assisted in the test.

The many friends of A. G. Studer will be pleased to learn that he returned from Rochester, Minn., on Monday very much improved in health.

15 YEARS AGO

Mr. and Mrs. John Bellamy of Westcott are visiting friends in Calgary this week.

Didsbury was again the scene of a disastrous fire, the second in 3 months, when Mayor Atkins' implement sheds and office, Bush's restaurant and Sinclair Bros.' blacksmith shop were completely destroyed.

Born—To Mr. and Mrs. H. Pearson, Feb. 24, 1914, a daughter.

Mrs. R. C. Oldham returned last Wednesday from a visit to Lacombe.

10 YEARS AGO

Mountain View and Westerdale municipalities both turned down by a big majority in the annual elections the proposed new hail insurance by-laws.

L. C. Alt has purchased the F. Diebel farm and expects to move soon after the sale.

A surprise party took place at the home of Mr. and Mrs. McDougall to bid adieu to Mrs. McDougall who is leaving shortly for a visit to Scotland.

ITEMS OF INTEREST

Much satisfaction is expressed in the far northern part of the province over the recent announcement from Ottawa that the Government Telegraph line is to be extended to Fort Vermilion. This will provide communication by wire with the outside world for a number of rapidly settling communities which up to the present have been isolated in this regard.

An attendance of approximately 200 has been registered at the special course for weed inspectors held by the Department of Agriculture at the University of Alberta two weeks ago. Officials of the Department report that this has been one of the most successful events of its kind ever held in the province. A keen and intelligent interest has been taken by those in attendance in the various addresses and discussions making up the program, and it is felt that as a result of this course, a large number of men will be well equipped to serve efficiently as weed inspectors in their own communities during the coming summer.

Alberta stands second among the provinces of the Dominion in its per capita national wealth, being exceeded in this respect only by British Columbia, according to figures just issued by the Dominion Bureau of Statistics. As regards the provincial distribution of wealth, Ontario ranks first with an estimated agricultural wealth of \$9,130,189,000 and Quebec second with an estimated wealth of \$6,658,108,000. The western provinces, however, lead in per capita wealth. B.C. holds first place with a per capita wealth of \$3,814; Alberta second with \$3,608; Saskatchewan third with \$3,559, and Manitoba fourth with \$2,957. These figures may be compared with \$2,902 for Ontario; \$2,598 for Quebec and \$2,842 the per capita wealth for the whole Dominion.

Took Soda 20 Years for Gas—Stops Now

"For 20 years I took soda for indigestion and stomach gas. One bottle of Adlerika brought me complete relief."—John B. Hardy.

Adlerika relieves gas and sour stomach at once. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel! Overcomes constipation.

H. W. Chambers, Druggist

COD LIVER OIL FOR POULTRY NECESSARY

It has been found that feeding two per cent of cod liver oil in the mash of the breeding birds during the winter months, results in a five fold increase in the anti-rachitic and fat A soluble vitamins.

When chicks are hatched from these eggs and absorb the rich yolk into their intestines, they are fortified against rickets, as far as outward symptoms are concerned, for the first three weeks.

It pays to give the baby chicks a rich inheritance from their mothers, in their first feed, the yolk. And then, particularly if it is early in the season, go and feed the chicks a little cod liver oil.

Here is what it does. When a chick is hatched, it has legs but no bone. The best you can call it is cartilage or gristle. Under natural conditions the sunlight would pour down upon the chicks and the shorter rays, or ultra violet light, would enable the chick to utilize the mineral matter in its feed in developing the gristle into bone.

Under present day artificial conditions of rearing, especially early in the season, when chicks are indoors, they can't get the benefit of the sun's direct rays. Feed them as much mineral matter as you will and they will grow, but their legs won't harden. They get "leg weakness" or rickets. Cod liver oil added to their ration, although it does not contain a bit of lime to make bone, contains the vitamins necessary to enable the body organism of the chick to utilize the food elements in the rest of its ration and build a boney frame work that is hard and sound to support the growth of the muscles and tissues.

Feed 2 per cent cod liver oil to your breeders this winter and then 1 per cent to your early chicks this spring, and you will have better chicks, lose fewer of them and do away with the old bug-a-boo of leg weakness.

A hen can produce up to her capacity only when she is fed so that all parts of the body are nourished.

Egg production depends first on how the hen was reared. Large digestive and productive capacity are due to the chick having obtained the feed and care which makes most of its inheritance.

Maintain the Quality of Alberta's Crops

BETTER SEED MEANS

Better Yields -- Better Grades -- Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with a—

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

D. A. McCANNEL, Provincial Publicity Commissioner, Secretary.

BABY'S OWN TABLETS
WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets Mrs. Donat Ploudre, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Turkey possesses important forest resources, chiefly in the northern districts of Anatolia.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

WORLD HAPPENINGS BRIEFLY TOLD

The French Parliament has ratified France's signature to the Kellogg renunciation of war pact by a vote of 570 to 12.

There were 2,300,000 unemployed in Germany on February 15, an increase of 50,000 since the end of January, official figures show.

The year 1928 was a disastrous one for Canadian hail insurance companies, the loss ratio being 100.39 per cent. of the premiums, according to official figures released at Ottawa.

Announcement is made by the Canadian Bank of Commerce that arrangements have been made to open a branch at Fort Churchill, Man., the eventual terminus of the Hudson Bay Railway.

Edmond J. Massicotte, well known Canadian artist, died at his home at Sault Aux Recllets, Que., after a short illness. He was 53 years of age. Massicotte was known chiefly through his pen and ink sketches of Canadian subjects.

A total of \$9,814,531.65 was spent in 1928, in grading, track laying, and ballasting on the Canadian National Railway lines according to a report tabled in the House of Commons by Hon Charles Dunning, minister of railways.

Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

One of the world's largest dams has been constructed on the Indus river, in India, for irrigation purposes.

Internal parasites in the shape of worms in the stomach and bowels of children sap their vitality and retard physical development. They keep the child in a constant state of unrest and, if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

The Japanese alphabet possesses two sets of characters—katakana for the use of men, hiragana for women.

The Oil Of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

At Broussa a Turkish captain has been sentenced to a year's hard labor for opposing the new alphabet introduced by Mustapha Kemal.

Sores Flea From It.—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

The first patent for the manufacture of wallpaper was taken out in 1692.

Minard's Liniment prevents Flu.

W. N. U. 1776

SUNDAY SCHOOL LESSON

MARCH 17

THE CHRISTIAN SABBATH

Golden Text: "For the Son of man is Lord even of the sabbath." — Matthew 12:8.

Lesson: Genesis 2:2, 3; Exodus 20:8-11; Matthew 12:1-14; 23:1-10; John 20:19; Acts 20:7; Romans 14:4-6; Revelation 1:10.

Devotional Reading: Psalm 92:1-5, 12, 13.

Explanations and Comments

Reverence the Sabbath, Exodus 20:8-11.—Remember the Sabbath day, to keep it holy: The root meaning of the word rendered "hallowed" in verse 11, is "to separate"; the Sabbath day is to be separated from other days by the way it is spent. Six days shalt thou labor, and do all thy work.

There are many persons whose difficulty in keeping this fourth commandment lies right there—they are too lazy to work the six days. The commandment lays stress upon working as well as upon rest. "Every man is as lazy as he dares to be," is an oft repeated saying which is not without some measure of truth. "Life without industry is sin," declares Ruskin. The tragedy of many a life is that time is not felt to be a trust for whose use he must render account. "Tis the measure of a man—his apprehension of a day."

"You keep the sabbath in imitation of God's rest. Do, by all manner of means, and keep also the rest of the week in imitation of God's work." — Ruskin.

"The setting apart of one day in seven for rest and worship was due, primarily, to the fact that the human machine will run six days with ease and regularly if it can rest on the seventh day, but it will creak and break if it is pushed on through every day alike. The duty of rest is quite as imperative as the necessity of work. The individual or the nation that disregards this law pays the penalty." — Amory H. Bradford.

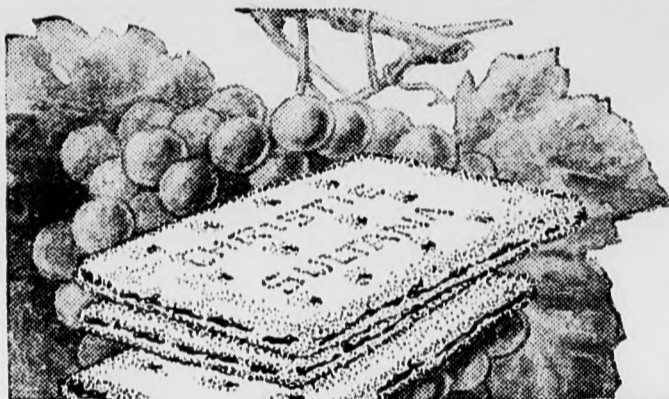

ACHES

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of headaches or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. **WINDOLITE** is supplied in rolls any length but in one width of 36 inches only. A square yard of **WINDOLITE** weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 140 lbs. The improved **WINDOLITE** requires no varnish. **WINDOLITE** is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

CHAPTER XVI.—Continued.

Wild berries, dead ripe, hung on lush drooping branches.

A soft "prut-prut-kwit-kwit" came from the leader of a covey of willow grouse that were feeding on the tiny fruit of a crab-apple tree. The call was answered by a shy note from one of the young birds, who probably was being taught the scale.

The summer had been one of exceptional dryness. For weeks there had been no rain, and a blazing hot sun had poured its fiery rays from a cloudless sky. The heavy mountain dews could not penetrate the close standing timber, and the carpet of needles and moss became dry as tinder. A pall of smoke, from fires raging on the Coast, hung over lake and mountain.

For Wilkinson and his men these were anxious days. They covered the section between the mill and Squamish twice a day; scanning the hillsides and valleys, ever watchful, ever on the alert; pleading and exhorting the settlers and loggers to greater vigilance, and all the while praying fervently for rain.

Donald had posted a notice that any employee found smoking in the woods would be immediately dismissed. Logging creates a vast amount of debris, or "slash," as it is known to the men of the woods. With the assistance of the Forestry men, Donald's crew had piled enormous heaps of slash on the hillside, awaiting a favourable opportunity to burn. These menacing piles of brush, extending along the main road for a quarter of a mile, were a constant source of danger. Every precaution, therefore, was taken. The spaces between the mounds of brush were raked clean, the road was patrolled day and night, and pails filled with water were placed at regular intervals. Special notices stating the great danger of fire, and warning not to smoke in this area, were posted conspicuously on tree and stump.

The mill at Cheakamus had closed. Sparks from the donkey engines had threatened the extinction of both plant and timber.

Donald with Wilkinson stood surveying the piles of dangerous waste. "If a fire starts and we can get to it at once, we will be all O.K." said Wilkinson, "but if it ever gets away from us here," pointing down the road, "no human agency can stop it."

They made the rounds of the patrol to satisfy themselves that the watchmen were attending to their duties. Leaving the main road, they scrambled through the tangled masses of tree-tops to ascertain how far distant the slash had been removed

from the standing timber. Suddenly a tiny wisp of smoke was seen to drift from behind a fir tree at the edge of the clearing. Without comment, both men broke into a run.

Aroused by the crashing footsteps, a young man, who had been lying stretched lazily on the soft moss, came quickly to his feet, a cigarette held in his fingers. His companion, also smoking, lay with his back against the bole of a tree a few feet distant. Fishing rods, creels, landing-nets and the remains of a lunch lay scattered on the ground.

"Don't you know better than to smoke here?" blazed Wilkinson.

The fisherman brazenly replaced the cigarette between his lips. Wilkinson's arm shot forward like a flash to pluck the offending weed from the mouth of the astonished youth. "I wish we had a law to prevent smoking in the woods. I would take great pleasure in arresting you," he growled savagely as he pinched the fire from the cigarette and ground it under his heel.

Unnoticed by the Forest Ranger, the second man removed his cigarette furtively and with a flint of his hand threw it behind him as he rose to his feet.

"You are too damned officious! You have no authority to prevent us smoking," he said angrily, as with clenched fists he advanced belligerently.

Wilkinson was near the breaking point. The weeks of worry, the long hours of arduous toil, and the lack of sleep had frayed his nerves. "Damn you!" he flared, "if it's a fight you want——" He broke off suddenly, his eyes wide and staring. "My God! look!" he shouted. A flare of flame shot from the spot where the cigarette had fallen. A breeze rustled through the trees to fan the flame to a drumming roar as a pile of slash caught fire. The Red Terror was loosed.

"The alarm!" cried Wilkinson.

"Fire!" shouted Donald as he stumbled to the road.

"Fire!" repeated the nearest patrolman.

"Fire!" rang the cry down the line until the call reached the mill, and every whistle was loosed in a screaming bedlam of sound to blanch the cheeks of these hardy men, who knew the awful terror of this devastating, devouring, fiery scourge that blasts the wilderness with smoke and ashes and takes its toll of both man and beast. Men dropped their tools and ran to answer the call.

The trapper's dugout shot swiftly across the lake.

Connie lay reading in the shade of her cabin. She came to her feet at the whistle's first call for help. A moment later, seated astride her cayuse, she was galloping down the hill.

Every man, regardless of position, answers the call to fight fire. When a forest fire is raging the forest ranger is an absolute sovereign. He can call the lawyer from his desk or the labourer from the ditch, but seldom does he need to exercise this power, as every good citizen is willing to help stay the deadly scourge. Meanwhile the fire was leaping from heap to heap of the powder-like slash to cross the road and sweep up the hill with incredible speed. With a throbbing roar it hissed to the tree-tops and rushed up the mountain. Stifling smoke enveloped the fire-fighters. Showers of burning bark pelted them from above.

"To the mill!" Wilkinson shouted; "we can do nothing here."

The men at the mill filed silently to their stations, and the big hoses poured torrents of water on roof and

wall. Big jets curved up the hill to drench the dry, hot earth.

In short, quick sentences Wilkinson outlined his plans.

"We will try to stop it on the north at the river, on the south with fire-breaks, and at the track on the east by back-firing. On the west we have to let the fire take its course until it burns itself out on the cliff above." His voice rose in sharp command as he sent the men to their posts. Donald with twenty men under him was set to work digging a fire-break on the south side. A "fire-break" is made by spading up the leaf-mould and humus down to the mineral soil and raking all inflammable material back from each side.

The fire was advancing rapidly and the heat was terrific. Choking and gasping in the stinging resinous smoke, the men strove in frenzy of haste to complete the fire-break before the flames should reach them.

A deer with a fawn at her heels came bounding in terror through the screen of smoke. Grouse and song-birds made a common escape from a common enemy feared by all. Rabbits, wild-eyed, scuttled in fear; squirrels and chipmunks joined in the hurried flight. Many of these smaller birds and animals would be flanked and lost.

Connie, proud that she could be of

W. N. U. 1776

SUN LIFE ASSURANCE COMPANY OF CANADA

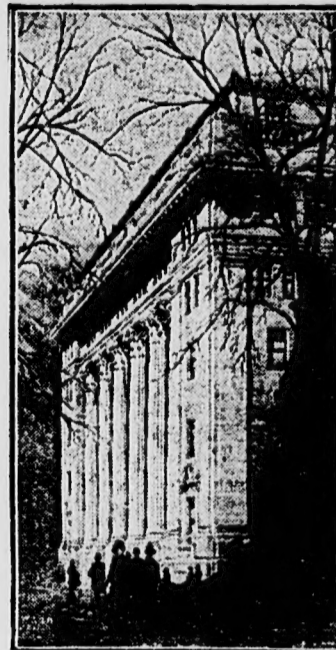

A TOWER OF STRENGTH

1928

Assurances in force (net)	\$1,896,915,000
An Increase of \$408,925,000	
New Assurances Paid for	441,244,000
An Increase of \$112,836,000	
Total Income	144,747,000
An Increase of \$41,972,000	
Surplus earned during the Year	40,264,000
Payments to Policyholders and Beneficiaries	49,920,000
Surplus and Contingency Reserve	66,938,000
An Increase of \$9,157,000	
Total Liabilities	422,020,000
(Including Paid up Capital)	
Assets, at December 31st, 1928	488,958,000
An Increase of \$87,652,000	
Rate of Interest earned on mean invested assets (net)	6.58%

DIVIDENDS TO POLICYHOLDERS INCREASED FOR NINTH SUCCESSIVE YEAR

The Company has also inaugurated the practice of paying a special maturity dividend on participating policies, ten or more years in force, terminating by death or maturity.

EXTRACTS FROM DIRECTORS' REPORT

... After deducting amounts re-assured, the total assurances in force now amount to \$1,896,915,934.57, an increase of \$408,925,254.48. Policies in force number 633,240, and in addition 136,293 certificates of assurance are held by employees of corporations and firms under the group plan.

While every field of operation contributed its full share to these impressive advances, the rapid development of our business in Great Britain and the United States is especially noteworthy. The generous reception of our Company in countries served by powerful domestic institutions is particularly gratifying, as testifying to widespread appreciation of our record and services.

... The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$111,370,229.10.

The strength and resources of the Company have been still further enhanced.

The net rate of interest earned on the mean invested assets, after making provision for investment expenses, has risen to 6.58 per cent. Dividend increases, bonuses and stock privileges, accruing on many of the Company's holdings, contributed substantially to this gratifying result.

A net profit of \$11,028,854.59 has been realized from the redemption or sale of securities which had risen to high premiums.

The securities listed in the assets have been valued at figures substantially below the value placed on them by the Government. This under-valuation of our securities represents an important safeguard against possible adverse market fluctuations, additional to the reserves specifically provided against that contingency.

We are again able to report that on the bonds and preferred stocks listed in the assets, not one dollar,

due either as interest or as dividend, is in arrear for a single day; while the dividends accruing to common stocks exceed by several million dollars those payable on the same stocks at the time of purchase.

The surplus earned during the year, based on the values given in the accounts, amounted to \$40,264,088.52.

\$10,000,000. has been deducted from the already heavily marked-down value of securities, as additional provision against possible fluctuations, increasing the amount so set aside to \$20,000,000.

The special amount set aside as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.

\$15,822,339.65 has been paid or allotted as profits to policyholders during the year.

After making all deductions and allocations, \$9,157,966.34 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts, and capital stock, to \$54,438,862.48.

The continued prosperity of the Company enables your Directors to announce, for the ninth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

In addition, your Directors have inaugurated the principle of granting a Special Dividend on participating policies maturing after having been in force ten years or longer. This new bonus will enable policyholders or beneficiaries whose withdrawal is occasioned by the maturity of policy contracts, to participate in the accumulated surplus which it has not as yet been considered prudent to divide.

The effort to provide life assurance at the lowest net cost obtainable has been increasingly appreciated. Our policyholders will be gratified by this further evidence of our desire that the Company's prosperity shall be fully shared by its members.

SUN LIFE ASSURANCE COMPANY OF CANADA

FLU Germs Breed In the Throat.

First: Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

assistance, dashed back and forth carrying messages for Wilkinson to the different fronts.

(To Be Continued.)

Corn is painful growths. Holloway's Corn Remover will remove them.

Aluminum street cars, lighter and quieter than the heavy steel cars now in general use, are being tried in several cities in the United States.

Roads In Canada

A total of 6,020 miles of road was constructed during 1927, and 44,416 miles were maintained under provincial patrol or gang maintenance systems.

Minard's Liniment for Coughs and Colds.

Hurricanes which blow at a rate of 80 miles per hour exert a pressure of 32 pounds per square foot.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Burnside Notes

The Lone Pine W. I. met at the home of Mrs. Chas. Marden Thursday afternoon last. There was a good attendance and Miss Annie McCulloch gave a splendid paper on Home Economics. The next meeting will be held on April 11th, when it is expected Mrs. Boyce, our district convener, will be present.

The Institute is holding a 5-day sewing course from July 20 to 25 to which all the ladies of the district are invited.

The Hard Times dance advertised for March 15th has been postponed till April 12th.

Messrs. Ralph Long and Ernest Simmonds spent the week-end at Mr. Noah Eckel's and Fred Thompson's.

A great many from this district attended the funeral of the late Alex. Bruce in Didsbury Sunday last.

Mr. H. A. Pearson is spending ten days in the hospital recovering from a severe cold and congestion of the lungs.

There was a splendid debate after the regular meeting of the Burnside U.F.A. on Monday night. Resolved "that the new School Act will be better than the present system." Mr. Hanlan Walsh and Mrs. E. R. Dawson upheld the affirmative while Messrs Lloyd Hehn and E. R. Dawson spoke for the negative. After a very interesting discussion the judges decided in favor of the affirmative though highly commending the losing side. Messrs Hugh McLean, Albert Arlenson and H. Richardson, Sr., were the judges.

On March 7th the Rugby W.I. held their monthly meeting at the home of Mrs. J. Hughes with 13 members present. It was nice to see so many well known faces among the visitors from our neighboring Institute. We were also delighted to have a visit from Mrs. Boyce, our constituency convener. Following a short business session Mrs. Hughes spoke on Canadianization. A patriotic contest was then held. Miss Brubacher gave us a most interesting reading on Pioneering in the Peace River district. The meeting then closed with God Save the King, and lunch was then served. The April meeting will be held at the home of Mrs. Hosegood.

Skin Sufferers Try This Test

A Pure Antiseptic Treatment
Are you tormented with the agony of a burning itching skin which seems to defy relief? Have you the sores, crusts, eruptions, blemishes, of skin disease? Try the pure cooling liquid D.D.D. It penetrates the skin, soothing and healing the irritated tissues. A 25c bottle proves its merit or your druggist gives your money back. D.D.D. means skin health. (Use only D.D.D. Soap.)
